(Unclassified - GLC) In connection with the request from Colonel Glenn Smith, Senate Preparedness Investigating Subcommittee staff, [] of OSI advised that he had discussed Colonel Smith's request for material for Senator Stennis' statement (see Journal of 1 October 1964) with the AD/SL. It was determined that we would provide Colonel Smith with a copy of "The Atomic Energy Desk Book" which contains information from unclassified sources on the atomic energy programs of various countries and would also give to Colonel Smith a citation from a NEW YORK TIMES magazine article of interest on this subject. Both of these were given to Colonel Smith later in the day.
